Anti-discrimination Competence Center North-East Lower Saxony

We continue to grow - together against discrimination and exclusion for equal cooperation and diversity!

Together with the administrative district of Lüneburg and many other partners diversu e.V. has been involved in the establishment of a municipal anti-discrimination counselling network (ADN) since September 2018.

On the website www.diversu.org you will find a list of partners in the network. The Lüneburg ADN serves as a model for other districts in the north-east of Lower Saxony. Stakeholders in the districts of Harburg, Lüchow-Dannenberg, Celle, Uelzen and the Heidekreis, who want to take an active stand against discrimination, are supported by diversu e.V. in setting up their own networks. For this purpose, diversu e.V. has raised funds from the federal programme "Demokratie Leben!" through the district of Lüneburg.

You would like your institution become part of the Lüneburg AD network or support it?
